

The Creative Café

It is a truth universally acknowledged that... a creative practitioner usually tend to work on their own, as Jane Austen would probably agree. But what is not universally acknowledged is the talent of artists and creative players who live and work within the Basingstoke and Deane district.

The University of Winchester in partnership with Basingstoke and Deane Borough Council invite you and the creative partners in your group to join us at The Creative Café at the top of town, Basingstoke. This will be an informal monthly event which will provide an opportunity to come out and meet professionals and other like-minded people in a relaxed setting. The focus will be on a guest speaker who'll present current local and national creative developments or issues, which are open to debate. This will also be an occasion to announce your upcoming projects, exhibitions or other news.

The Creative Café will be meeting upstairs at the Tonic Bar, London Road every last Thursday of the month (initially 24th September, 29th October and 26th November) at 6:30 for 7:00pm.

Come and join us for this free monthly event and find out what's happening in the creative community. If you are interested, please contact:
